Quick-Connect Tempering Valve Tailpiece
for use with Series 1170, MMV, L1170, 1170C
Sizes: ½", ¾", - 1" (15, 20, 25mm)

Installation Instructions

1. Close the hot and cold water supply valves.
2. Remove the existing union nuts and tailpieces.
3. Replace with quick-connect tailpieces and union nuts. Make sure to include filter gaskets.
4. Follow quick-connect installation below:

Quick-Connect Installation

1. Mark pipe as shown. This is pipe insertion depth.
2. Clean pipe end.
3. If using PEX tubing, insert pipe stiffener (provided) into end of pipe.
4. Push tubing into tailpiece up to mark.
5. Insert collet clip.
6. Check all connections for leaks.
