

QT QuickTurn™ CARRIERS

Closet Carriers That Get the Job Done, Quick.

Personalized Assembly Options & Easier
Jobsite Adjustability

Now available with both
pre-assembled and
disassembled options

Same size bolt heads
adjust with the same size socket

3/8" threaded bosses
accommodate fabricated flush valve
supports independent of the carrier studs

Uprights
fully adjust from the front of
the faceplate

Incremental height markings
for easy height adjustment

No-thread nipple
is fully adjustable from outside
the finished wall and seals
mechanically with an O-ring

Side-to-side feet
easily mount on angle
iron or strut rails

Wall plate
aligns at the finished wall and locks nipple in
at the proper depth, then doubles as a tiling
frame and protects the plumbing space
