

Industry Standard

Compression Seal Water Closet Carriers

Features

- Proven flanged compression seal with ASTM C564 compression gasket
- Smooth nipple seal covers 4x more surface area than traditional threaded nipple/O-ring seal
- Nipple adjusts easily from outside finished wall with standard socket extension
- Shortened (cut) nipples will not damage seal when re-positioned or re-installed
- Patent No. 6,979,027

Benefits

- Eliminates damaging and costly behind-the-wall carrier leaks
- Moisture cannot penetrate seal and trigger mold formation problems
- Positively holds air or water test first time
- No additional sealants or lubricants required at installation

Traditional O-Ring Seal
