AdvantEDGE System Components

As shown below, any AdvantEDGE sensor head plugs into the front end of the Interface Module. Any Communications Adapter plugs into the back end of the Interface Module to form a complete measurement system that can be mounted in process and be wired directly to a PLC, PDA or PC network. Measurement, calibration, configuration and diagnostics can be performed from a computer or from an intermediate LD500 Local Display.

A selection of plug and play communication modules provide power and direct interactive communications with control systems and computers. The table below shows the available protocols. If a local display is desired, the LD500 can be used. Multiple sensor assemblies can be used with the LD500.

Interface Module

The heart of the sensor assembly is the Universal Interface Module. It's encapsulated measurement electronics automatically converts sensor signals into calibrated measurement units. It works with a variety of Communication Adapters to operate directly with any computer system.

Sensor Head

Pre-calibrated plug and play sensor heads can be replaced at any time, making AdvantEDGE the most versatile and accurate analytical measurement system on the market. The table below shows the parameters available.

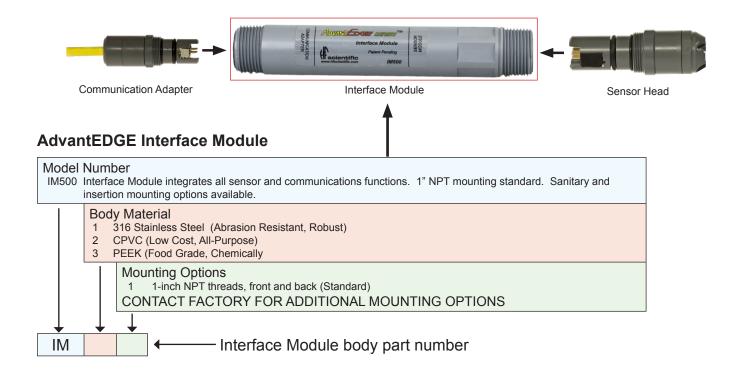

Parameters pH	Interface	Communications Protocols	Control Room
ORP Free Chlorine Turbidity Dissolved Oxygen Optical Dissolved Oxygen Dissolved Ozone Conductivity	Direct Local Display	Modbus RTU Profibus RS 485 ASCII CANOpen Device Net Ethernet IP USB	SCADA PLC DCS PC

Optional LD500 Local Display

Typical AdvantEDGE System Assembly

Sensor Head

AdvantEDGE Communications Adapter

Model Number

CA

The AdvantEDGE Communications Adapter plugs into any Interface Module for direct connection to PLC, computer or PDA for full-featured measurement, calibration, configuration and diagnostics. It removes the need for an intermediate analyzer electronics box/local display. A Local Display can be used if desired.

Body Material 316 Stainless Steel (Abrasion Resistant, Robust) CPVC (Low Cost, All-Purpose) PEEK (Food Grade, Chemically Communications Modbus RTU, for LD500, PLC and Modbus networks. Required for Profibus networks. RS-232 ASCII, for PC communication. AquaComm software included. Modbus RS-232, for direct PC and PLC applications. 2A CANopen for PC and PLC networks. 5R DeviceNet for PLC networks. Ethernet IP, Modbus TCP and TCP/IP for POE switches. 7R 8R USB cables for PC and portable applications. AquaComm software included. Cable Length 10 Feet 2 20 Feet 3 30 Feet Where X = Number of Feet/10 Reserved Category

General Guide for Communications Adapter Cable Length

Α

Protocol	Max Drop Length	Notes
USB	16.4 ft (5 meters)	Supplied with Series 'A' Plug for direct connection to PC. Use with AquaComm™ software.
RS-232 ASCII	50 ft (15 meters)	RS-232 power injector recommended (PN: JBOX232). Use with AquaComm™ software.
DeviceNet	20 ft (6 meters)	See Table 1 for details. Use Device Tap hardware for trunk connection.
Modbus RTU	50 ft (15 meters)	See Table 2 for details. Use Device Tap hardware for trunk connection.
Modbus RS-232	50 ft (15 meters)	RS-232 power injector recommended (PN: JBOX232).
CANopen	72 ft (22 meters)	See Table 3 for details. Use Device Tap hardware for trunk connection.
Ethernet	328 ft (100 meters)	Use Ethernet Hub or Switch every 328 feet to extend cable distance.

- Communications Adapter part number

Table 1: DeviceNet data rate versus drop length.

Data Rate	Trunk Distance	Drop Length		
		Maximum	Cumulative	
125 kbps	1640 ft (500 meters)		512 ft (156 meters)	
250 kbps	820 ft (250 meters)	20 ft (6 meters)	256 ft (78 meters)	
500 kbps	328 ft (100 meters)		128 ft (39 meters)	

Table 2: Modbus RTU (RS-485) data rate versus drop length.

	Data Rate	Trunk Distance	Drop Length	
- 1			Maximum	Cumulative
	19.2 kbps	4000 ft (1219 meters)	50 ft (15 meters)	250 ft (76 meters)

Table 3: CANOpen data rate versus drop length.

Data Rate	Trunk Distance	Drop Length		
		Maximum	' Cumulative	
125 kbps	1640 ft (500 meters)	72 ft (22 meters)	512 ft (156 meters)	
250 kbps	820 ft (250 meters	36 ft (11 meters)	256 ft (78 meters)	
500 kbps	328 ft (100 meters)	18 ft (5.5 meters)	128 ft (39 meters)	

Note 1: For Profibus DP (V0/V1), connect up to 30 Modbus RTU Communications Adapter with a Profibus Gateway Adapter (Part Number: PA26R on page 16.

AdvantEDGE LD500 Local Display

Model Number LD500 Local Display for measurement, calibration and configuration capability of AdvantEDGE systems. Full featured analog output and relay functions. PID function standard with pH and conductivity. pH compensation available with Chlorine. NEMA 4X Wall mount standard. Panel and pipe mount options available. Outputs One 4-20mA Analog Output Only Two 4-20mA Analog Outputs and Two Alarm/Control/Wash Relays (Form C) Reserved Category **Host Communications** None RS-232 ASCII 1 2 Modbus RS-232 4 Modbus RTU (RS-485). For Modbus and Profibus networks. 5 6 CanOpen Ethernet IP, Modbus TCP, TCP/IP Relays No Relays Two Alarm/Control/Wash Relays (Form C) Power 24 VDC 2 100 to 240 VAC LD500 Local Display part number В LD

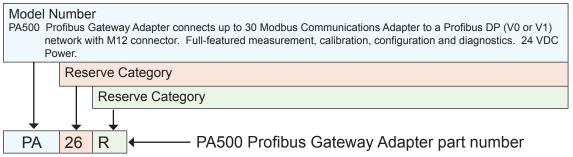

Hardware	Description	Part Number
1/4 DIN Panel Mount	Hardware for mounting in a 3.5" square cutout.	DIN4KIT
½ DIN Panel Mount	Hardware for mounting in a 5.25" square cutout.	DIN2KIT
Pipe Mount	Hardware to mount onto a 2" pipe.	PIP2KIT
AC/DC Power Supply	External 100-240 VAC input to 24VDC output.	PS24
Sun Shield	To protect Display from full sunlight	SUN01
Cord Grips	1/2 Inch cord grips for conduit boxes (Qty 5)	CGRIP01

NOTE 1: Relays are only available when choosing 2 analog outputs.

NOTE 2: For Profibus DP (V0/V1), configure the LD500 with Modbus RTU Host Communications and purchase a Profibus Gateway Adapter (PN: PA26R on Page 16).

Profibus Gateway Adapter

Communications Hardware	Description	Part Number
Profibus Accessories M12 Profibus Tee Connector Male Termination Network Female Termination Network Female Field-wireable M12 Connector Male Field-wireable M12 Connector 9-Pin Male D Connector Profibus Cable	Mating connector for Profibus Gateway Adapter M12 Termination at the end of the network-Male M12 Termination at the end of the network-Female Female field-wireable connection to M12 Tee Profibus cable connection to M12 Tee Profibus cable to D connector (usually to PLC) Profibus network cable (purple).	AS-RKSW2RSSW45 AS-RSSW45-TR AS-RKSW45-TR AS-BMWS8151-8.5 AS-BMSWS8151-8.5 AS-D9S PSECxx; xx=ft
Modbus/DeviceNet Accessories 1 Port Device Tap, DIN Rail 2 Port Device Tap, DIN Rail 4 Port Device Tap, NEMA4X Multi-port termination resistors Extension Cable	Interface connection on network with DIN rail Interface connections on network with DIN rail Interface connections on network with NEMA4X Termination for Device Taps at the end of network Interface extension cable	AS-810-902/000-001 AS-810-901/000-001 AS-810-900/000-001 MPTR DSECxx; xx=ft
Ethernet Accessories Modbus to Ethernet Gateway Power Injector with Cross Over cable PoE Switch – Consumer Grade	Up to 32 parameters from multiple Modbus Interface One Interface plugs in directly for power injection. 8 Interface plugs in directly.	AS-451EM-D AS-POE-48i AS-FS108P
General Accessories RS-232 junction w/power and connector AC/DC Power Supply AquaComm™ Software	Connect RS-232 Interface to power and computer External 100-240 VAC input to 24VDC output PC software for USB and RS-232 Advantage. Measure, calibrate, configure, diagnose, data log	JBOX232 PS24 AquaComm™

NOTE 1: Consult communications hardware data sheet for product descriptions.

NOTE 2: Use Port Device Tap to connect multiple Modbus RTU Communications Adapters to the Profibus Gateway Adapter.

Mounting Hardware

Mounting Hardware	Description	Part Number	
1.5" Union Mount	Stainless Steel for Turbidity Sensor CPVC for Turbidity Sensor	MH1041-RT MH1042-RT	
1.5" Union Mount Assembly	Stainless Steel CPVC	MH1041 MH1042	
1.5" Tee	Schedule 40, Stainless Steel Schedule 80, CPVC	MH3011 MH3022	
Immersion Assembly	7 ft PVC extension with junction box – 1" Sensors 7 ft PVC extension with junction box - for Optical DO Sensors	MH3083 MH3083-RD	
Immersion Assembly w/ Swivel Rail Mounting	7 ft PVC extension with junction box – 1" Sensors With swivel hand rail mount.	MH1242	
Immersion Assembly w/ Swivel and Ball Float	7 ft PVC extension with junction box – 1" Sensors With swivel hand rail mount and inflatable float.	MH1252	
1.5" Ball Valve	Low Pressure, CPVC Low Pressure, Stainless Steel High Pressure, CPVC High Pressure, Stainless Steel	MH1112 MH1111 MH1122 MH1121	
Flow Chamber Assembly	Flow Chamber with mounting plate w/ kynar fittings. Dual Flow Chamber with mounting plate w/ fittings.	FC002 FC003	
Ball Float Platform	PVC Float Platform for up to 4 AdvantEDGE Systems	MHFB02	
Wash Hardware	Attach air/water purge block to sensor body. Works with compressor & LD500 wash relay or PLC. Attach air/water purge block to Optical DO Sensor body. Works with customer supplied compressor & LD500 wash relay or PLC.		
Junction box Extension Cable	For extension cables. Terminal strip included. Interface Extension cable	JBOXX01 DSECxx; xx=ft
