

Traditional Solutions for Modern Construction

ISCA-101-L/R-T single horizontal tapered thread water closet carrier

The ISCA-101-L/R-T offers a traditional tapered thread nipple that can be installed with block thread sealant or black RTV silicone sealant.

Features:

- Epoxy coated cast iron fitting, 4"(102) no hub waste and 2"(51) no hub vent connections
- Epoxy coated cast iron threaded faceplate assembly
- Epoxy coated cast iron foot supports with incremental measurements embossed onto legs
- Adjustable for standard and wheelchair height
- Threaded ABS nipple with integral test cap and neoprene bowl gasket, notched for secure tightening with optional CA-100-TNT (8189808) wrench
- Plated hardware and chrome cap nuts
- Carrier complies with requirements of ASME A112.6.1M up to 500 lb. (227 kg.) static load
