

# HydroGuard® T/P

# Series e420

## Series e420

### T/P Total Protection: Temperature and Pressure

- Rugged brass construction suited for the most demanding installation
- Provides true protection against pressure and temperature changes
- Eliminates time and cost for seasonal limit stop adjustments
- Won't stick or seize due to harsh water conditions
- Self-contained cartridge installs in minutes to simplify repairs
- ASSE 1016 Type T/P listed and CSA B125 certified

*Serving hotel, healthcare, education, commercial  
and residential markets since 1891.*

# POWERS™

## Powers offers you complete shower systems...

- Deluxe or standard chrome-plated brass components
- Valve housing is 100% cast bronze
- Long-lasting, trouble-free valve design
- Compensates for 50%+ fluctuation in supply line pressures\*
- Compensates for 25° F changes in water supply temperatures\*

**Advanced Thermal Actuation** technology maintains a safe and constant output flow despite changes in input temperature or pressure – dramatically minimizing the risks of scalding and facility liability...

\* See ASSE Standard 1016 Type T/P

## System components combine beauty and functionality...

Deluxe chrome-plated brass faceplate and handle provide lasting performance and an attractive appearance.

Showerheads are available in four models: deluxe chrome-plated brass, standard chrome-plated brass, adjustable massage, and economizer chrome-plated ABS. Arm and flange options include standard and deluxe chrome plated brass.

Tub spouts are available with and without diverters in a range of fitting sizes. All spouts are chrome-plated.

Diverters are available concealed or exposed. Vacuum breakers are available as elevated with chrome plating, or as in-line.
