

RainCycle™

RAINWATER HARVESTING SYSTEM

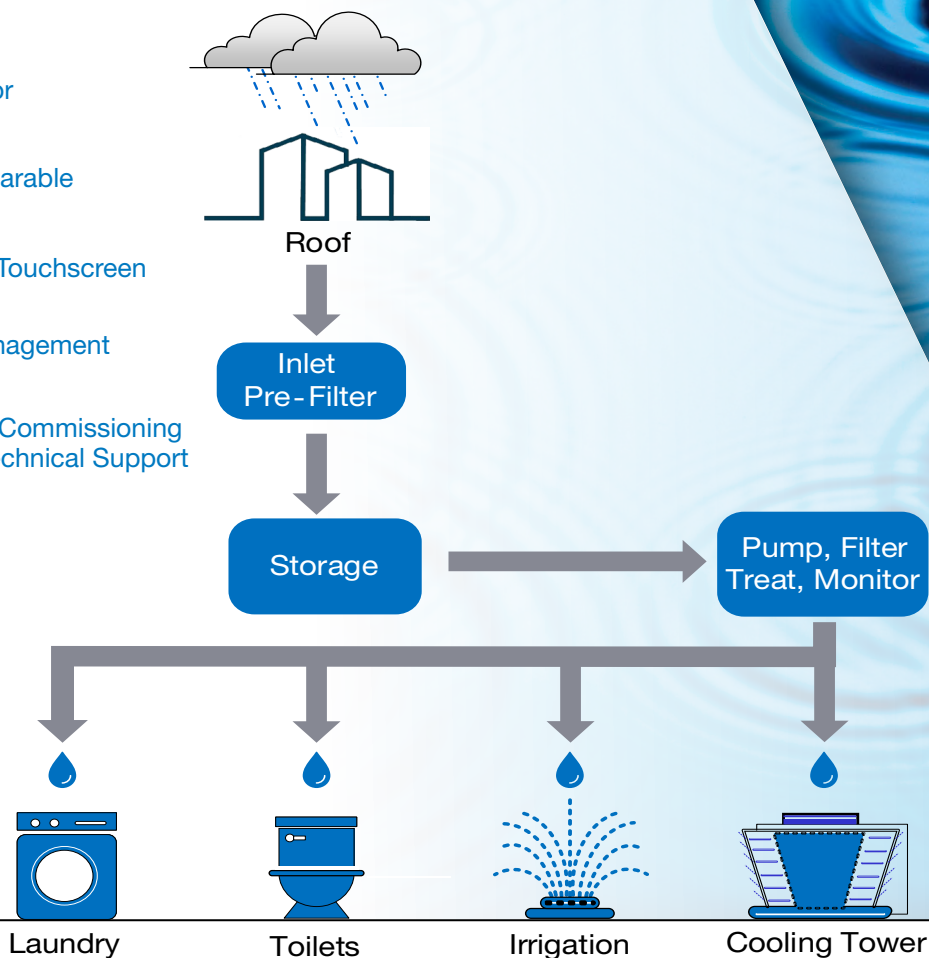

Turn Rain Into a Resource with Watts RainCycle™

With over 140 years of water management expertise, Watts helps you take control of your water strategy and reduce reliance on municipal supplies. Our RainCycle™ systems make rainwater harvesting simple and efficient, by collecting, pre-filtering, storing, and treating roof runoff in one integrated solution. Designed for non-potable applications, these systems help you lower operating costs, meet sustainability goals, and conserve the planet's most critical resource. By capturing and using rainwater, you're not just saving money, you're reducing environmental impact and creating building resilience for the future.

For Cooling tower makeup, Commercial irrigation, Fixture flushing, Stormwater Management, Fire Suppression and Tank Drafting, and Process Water applications.

-  Precision-Engineered Solution for Demanding Applications
-  Modular Design with Configurable Options
-  Intuitive controls via HMI Touchscreen Interface
-  Seamless Building Management Integration
-  Expert-led Startup, Commissioning, Owner Training & Technical Support
