tN4 Gateway 483 Software Update includes OS X 10.9 Mavericks

Software version J1193U for the tN4 Gateway 483 is now available and is compatible with Mac OS X 10.9 Mavericks.

Updating Existing Installations

While viewing the tN4 Gateway web pages:

1. Click Configuration
2. Click Software
3. Click Update Software
4. Click Update

New Installations

Download tN4 Gateway software version J1193U at:

http://tekmarcontrols.com/products/accessories/483.html

New Features of Software Version J1193U

- Compatible with OS X 10.9 Mavericks
- Improvement to the snow melt sensor status with the Snow Melt Control 654
- Improvement to the emergency mode with the Thermostat 553 and 557
- Improvement to tN4 bus information with the Universal Reset Control 423

Computers with Mac OS X 10.5 Leopard

The Mac operating system 10.5 Leopard (released in 2007) is not compatible with the tN4 Gateway software version J1193U. Computers with this operating system need to be installed with software version J1193T.

For updating an existing installation, follow the instructions above. The system will automatically detect your operating system and upload the software version J1193T.

For new installations go to http://tekmarcontrols.com/products/accessories/483.html. This will be the last update for computers with the 10.5 Leopard operating system.

To Find the Version of Your Mac Operating System

Click the Apple symbol in the upper left hand corner and select "About This Mac".

OS Version	Name	J1193T Compatibility	J1193U Compatibility
10.9	Mavericks		●
10.8	Snow Lion	●	●
10.7	Lion	●	●
10.6	Snow Leopard	●	●
10.5	Leopard	●
