tN4 Gateway 483 Software Update J1193W

Software version J1193W for the tN4 Gateway 483 is now available. Download the new version at:
<http://tekmarcontrols.com/products/accessories/483.html>

New Data Export Feature

Software version J1193W provides the ability to export data logging information in Comma Separated Value (CSV) format. This allows data to be charted in a spreadsheet program such as Microsoft Excel. To export a CSV file:

1. Navigate to the Graphing page
2. Select the time and date range
3. Select the temperatures and parameters that you wish to export data
4. Click the CSV Export button
5. A CSV file will download to your computer
