FloPro™-MD

Gas Flow and Pressure Measurement System

Take the guesswork out of YOUR work

• Displays Real Time Data, Gas Pressure, Flow & BTUs

• No Need to Do The Math-It Does All Calculations

• Replaces The Need for Flowmeter, Manometer & Calculator

• Compatible with Natural Gas (NG) & Propane (LPG)

Pressure

Pressure Reading in "w.c.

Flow

Flow readings in Cubic Feet per Hour (CFH)

BTU

Heat Energy Capacity in BTU/Hr

User Friendly Features
• Ideal for servicing, diagnostics, and routine maintenance
• Easy installation with common, off-the-shelf tools

Verification and Data Collection
• Gas flow, capacity and pressure data are easily displayed and uploaded to FloPro™-MD app
• FloPro-MD app is easily downloadable to iOS or Android devices
• Proper installation or repair can be verified via a .csv data file that can be imported into excel and a report generated for your customer

Applications
Commercial Kitchen appliances, Boilers, Tankless Water Heaters, Furnaces, Dryers, Kitchen Appliances, standby power generators. Light commercial boilers and water heaters, rooftop units

Operating Range
• Natural Gas (NG) equipment: 15,000 to 325,000 BTU/Hr
• Propane (LPG) equipment: 15,000 to 500,000 BTU/Hr

Benefits
• Free app available from the Google Play™ or Apple® App Store® online stores.
• Compatible with Natural Gas (NG) and Propane (LPG) commercial kitchen appliances and equipment at specified flow rates
• Easily view real time and recorded data via user-friendly app
• Automatically converts gas flow rate (CFH) to capacity (BTU/hr)

Features and Functions
Measures/Displays the Following:
• Gas Flow Rate in Cubic Feet/Hour (CFH)
• Gas Flow Capacity in BTU/Hour
• Gas pressure measurement in inches water column (" w.c.)
• Corrosion-resistant aluminum construction with black finish
• Annunciator LEDs communicate device status
• Standard ¾" Female NPT connections

Interface & Communications: Android™ and iOS™ mobile operating systems via Bluetooth Low Energy
