

Snap'N Go™

Blue Hose® Holstering System

Snap'N Go™ is designed to support the Blue Hose® when disconnecting commercial food service appliances during routine cleaning or maintenance. Suspending the Blue Hose and Quick Disconnect (QD) off the floor provides protection from debris and harsh cleaning chemicals, which may cause corrosion.

Dormont®
A WATTS Brand

Benefits

- Holsters the Blue Hose assembly when disconnected from the equipment
- Existing Blue Hose installations can be retrofitted with the Snap'N Go
- Suspends the Blue Hose in a convenient location when moving the equipment during routine cleaning or maintenance
- Minimizes trip hazards
- Minimizes contact with harsh cleaning chemicals which may cause corrosion to the Blue Hose assembly

Features

- Compatible with Dormont $\frac{3}{4}$ " SnapFast® and Standard Snap™ Quick Disconnects (QDs) and $\frac{3}{4}$ " Blue Hose
- Easy to clean, durable, flexible
- Flexible, tough injection molded Thermoplastic Polyurethane (TPU)
- Crush Resistant
- Resistant to oils and greases
- Max Temperature 350°F (177°C)

Recommended Applications

- Commercial Food Service Kitchens
- Gas equipment applications where the Blue Hose is presently installed

Installation Method

- Each Snap'N Go kit includes a $\frac{1}{4}$ " nylon bolt and wing nut hardware pack for your convenience
- No Tools Required
- Easy installation
