Floor Mounted "Track" Extended Lavatory Carrier with Concealed Arms

Specification

Watts TCA-411-2/3/4 floor mounted "track" extended lavatory carrier with concealed arms is a multi-unit lavatory carrier designed for use in areas that require two or more sinks. Floor mounted carriers work independently of the finished wall structure, and are generally specified in commercial applications. Watts wall hung fixture carriers provide structural support for off-the-floor lavatories, urinals, water cooler and service sinks. The use of the extended lavatory carrier significantly saves time in the installation over multiple single unit lavatory carriers. The TCA-411-2/3/4 comes in three configurations, two sink (-2), three sink (-3), or four sink (-4) lengths.

Call customer service if you need assistance with technical details.

Options	
Suffix	Description
TCA-411-2	2 Sink Carrier
TCA-411-3	3 Sink Carrier
TCA-411-4	4 Sink Carrier
