Correct Water Temperature Shouldn't be a Balancing Act

Precise balancing shouldn't take forever. Make installs quick and painless with the LF iDROSET CSD, the calibrated flow measurement and balancing valve that lets you set and read flow without any additional tools.

FEATURES:

- No external measuring device needed
- 1/2, 3/4, 1" sizes
- Large, easy-to-read gauge
- Rotating hand wheel that sets flow rate
- Patented flow measurement technology
- Max. operating pressure: 230psi
- Operating temperature: 14-230 °F
- Each valve is factory-tested to +/- 10% accuracy
