

# Switch to Smarter Water Tempering

## IntelliStation® | 2

### EASY RETROFIT INSTALLATION

Simple upgrade from a  
traditional mixing valve

### REDUCE STARTUP TIME

No manual balancing required  
for faster startup

### IMPROVE PERFORMANCE

$\pm 2^{\circ}\text{F}$  temperature  
control range versus  
 $\pm 7^{\circ}\text{F}$  with TMVs

Upgrade to the  
IntelliStation® 2

**POWERS™**  
A WATTS Brand

# Why Upgrade to IntelliStation® 2?

Installing an IntelliStation® 2 is a smart investment in safer, more efficient hot water control. It eliminates guesswork by replacing outdated manual systems, delivering consistent performance with reliable digital precision.

## Benefits of Digital Mixing

- More precise hot water delivery system control—helps avoid temperature creep
- Superior system insight with access to historical performance data via Nexa™ or BAS
- Reduced risk of scalding and thermal shock
- Significant energy savings with lower approach temperature, tighter temperature control, and setback programming

## How it Works

- 1 Calculate how much you can save with an IntelliStation 2
- 2 Purchase the IntelliStation 2 from your local distributor
- 3 Operate and maintain your system from anywhere with unprecedented performance backed by a 5-year warranty\*

\*18-month standard warranty can be extended, free-of-charge, to 5-years when you register your equipment to Nexa.
